America's Premier "Chicago and More" Horn-Band Tribute Experience · brasstracksband.com

THE SHOW

Brass Tracks Band is America's premier "Chicago and More" tribute act. Founded in Cincinnati, Ohio in 2013, the band is an **8-piece powerhouse** — anchored by a world-class three-piece brass section — recreating the sound and power of Chicago and every iconic horn band of the 1960s, '70s and '80s, live, just like it was recorded. Every show opens and closes with Chicago's greatest hits; in between, audiences get Earth, Wind & Fire, Blood, Sweat & Tears, Tower of Power, Stevie Wonder and many more. High-energy, fast-paced, all-ages, and built for one thing: filling the dance floor.

"Get up off your brASS and dance!"

WHY BUYERS TRUST THIS STAGE

- **They keep coming back.** Springfield Arts Council, Hollywood Casino, and other venue partners have booked BTB again and again. Repeat business is the clearest signal a band delivers.
- **Independently verified, not self-proclaimed.** Organizers from amphitheaters, arts councils and concert series back it up in their own words — as does the Dayton Daily News.
- **Built for rooms like yours.** A track record across corporate events, amphitheaters, festivals and private events — not just bar gigs. BTB reads a mixed, all-ages crowd and keeps it engaged for a full set.
- **One act, no substitutes.** A premier "Chicago and More" horn-band tribute — the 8-piece professional lineup is the lineup that shows up. No backing tracks, ever.
- **13 years, hundreds of shows, one reputation.** Founded 2013, built on a lineup with 30+ years of stage experience before BTB existed.
- **Easy to book, easy to work with.** Riders, stage plot and logistics are dialed in before you ask. Inquiries get a response within 24 hours.

ADAM HELMS, RIVER'S EDGE AMPHITHEATER

"While we present 25–30 acts every summer, BTB has become one of my personal favorites, and is an audience favorite as well!"

TIM ROWE, SPRINGFIELD ARTS COUNCIL

"Nothing gets a crowd jumping like horn-driven Rock 'n' Roll and R&B, which makes Brass Tracks Band the perfect band."
